

WSDL Diff Result

Document	TargetNamespace
Original (/home/torsten.landschoff/service_type_spyne2_9.wsdl)	expected.namespace
Modified (/home/torsten.landschoff/service_type_spyne2_12.wsdl)	expected.namespace

PortType: Application

Operations	Messages	Modifications	Compatibility
derive_uuid	➔ derive_uuid	breaking (Application/derive_uuid-input.html)	⚡
	➔ derive_uuidResponse	breaking (Application/derive_uuid-output.html)	⚡

Differences:

⚡ The changes break the interface.

Definitions:

PortType Application:

Operation derive_uuid:

Input: ➔

Message derive_uuid: ➔

Part derive_uuid: ➔

Element derive_uuid: ➔

ComplexType derive_uuid: ➔

Sequence: ➔

Element original: ➔

⚡ The type of element 'original' changed from tns:UUIDType to s0:UUIDType. ➔

Output: ➔

Message derive_uuidResponse: ➔

Part derive_uuidResponse: ➔

Element derive_uuidResponse: ➔

ComplexType derive_uuidResponse: ➔

Sequence: ➔

Element derive_uuidResult: ➔

⚡ The type of element 'derive_uuidResult' changed from tns:UUIDType to s0:UUIDType. ➔

Types:

🟢 Schema spyne.model.primitive.string added.

Schema expected.namespace has changed:

ComplexType derive_uuid: ➔

Sequence: ➔

Element original: ➔

The type of element 'original' changed from tns:UUIDType to s0:UUIDType. ➔

Sequence ↴
Element derive_uuidResult: ↴

The type of element 'derive_uuidResult' changed from tns:UUIDType to s0:UUIDType. ↴

⊖ SimpleType {expected.namespace}UUIDType removed.

⊕ Imported schema import[namespace=spyne.model.primitive.string, schemaLocation=null] added.

These symbols indicate that:

- ⊕ : Element has been added to the modified wsdl.
- ⊖ : Element has been removed from the original wsdl.
- ✓ : The change will not influence the interface.
- ⚡ : The change will invalidate the interface.
- ➡ : The change is related to the request message.
- ⬅ : The change is related to the response message.
- ⚡ : The change is related to a fault message.
